### Living Philosophy A Historical Introduction

The goal of this text is to present philosophy to newcomers as a living discipline with historical roots. While a few early chapters are historically organized, the goal in the historical chapters is to trace a developmental progression of thought that introduces basic philosophical methods and frames issues that remain relevant today.

Aristotle (384 B.C.E.—322 B.C.E.) Aristotle is a towering figure in ancient Greek philosophy, who made important contributions to logic, criticism, rhetoric, physics, biology, psychology, mathematics, metaphysics, ethics, and politics. He was a student of Plato for twenty years but is famous for rejecting Plato's theory of forms. He was more empirically minded than Plato and Plato's ...

Philosophy (from Greek: φιλοσοφία, philosophia, 'love of wisdom') is the study of general and fundamental questions, such as those about existence, reason, knowledge, values, mind, and language. Such questions are often posed as problems to be studied or resolved. Some sources claim the term was coined by Pythagoras (c. 570 - c. 495 BCE); others dispute this story, arguing that ...

Postmodernity (post-modernity or the postmodern condition) is the economic or cultural state or condition of society which is said to exist after modernity. Some schools of thought hold that modernity ended in the late 20th century – in the 1980s or early 1990s – and that it was replaced by postmodernity, and still others would extend modernity to cover the developments denoted by ...

While Western philosophy has not historically been concerned with animal rights or animal welfare, it has more recently become an important part of animal advocacy conversations and movements. The three historical philosophers that are most discussed are René Descartes, John Stuart Mill, and Immanuel Kant.
