grams of ground coffee was used in brewing, the bean would have lost 2 grams of soluble material to water.

Because the rate at which these soluble compounds dissolve vary, changes to grind, water temperature, brew time, coffee weight and brew equipment will invariably produce vastly different beverages.

Such an amazing experience, the service was great and the coffee was delicious. I got a cold brew with oat milk. Only downside is that they close at 3pm but other than that such a fun place to study or just have coffee with friends.

Useful 2. Funny. Cool 2.
