Buss Lab — Evolutionary Psychology at the University of Texas
The concept of the evolution of morality refers to the emergence of human moral behavior over the course of human evolution. Morality can be defined as a system of ideas about right and wrong conduct. In everyday life, morality is typically associated with human behavior, and not much thought is given to the social conducts of other creatures.

Psychological Egoism. Psychological egoism is the thesis that we are always deep down motivated by what we perceive to be in our own self-interest.Psychological altruism, on the other hand, is the view that sometimes we can have ultimately altruistic motives.Suppose, for example, that Pam saves Jim from a burning office building. What ultimately motivated her to do this?
